

7th October, 2023 || Saturday
FREE PAPER 4

08:00 - 09:00 Mini Oral Presentations		
Chairpersons: Swastik Purkait, Anshuman Saha		
5+1	Immunoabsorption for high ABO antibodies and donor specific anti HLA antibodies outcome in ABO incompatible renal transplantation	Raj Kumar Sharma
5+1	Early recurrent nephrosis after renal transplant in a patient with NPHS2 mutation related steroid resistant nephrotic syndrome - A case report	Ajay Goyal
5+1	Tacrolimus trough drug ratio and its influence on graft function - A retrospective study	Prathiba Parthasarathy
5+1	^{99m} Tc DTPA scintigraphy and renal biopsy correlation in post renal transplant patients at a tertiary care centre in south India	Shweta Phadke
5+1	Transplanting very small pediatric kidneys into adults - First Indian report	Krishnapriya Vadlapatla
5+1	Serum changes in fibroblast growth factor (FGF-23) and biomarkers of bone mineral metabolism in adults after kidney transplant and their correlation with patient and graft survival	Manoj Gupta
5+1	Endoscopic periureteral deflux injection in vesicoureteral reflux post renal transplant with recurrent UTI	Kajal Darandale
5+1	Post-renal transplant infections: One year experience from a tertiary care centre in eastern India	Kathirvel M
5+1	Clinical and microbiological profile of post-kidney transplant pneumonia, its risk factors and predictors of outcome: A single centre experience from south India	Sairam B

5+1	The association between pre-existing eye donation awareness of the next of kin and donation rate after grief counselling - A cross-sectional study	Oshin Puri
09:00 - 10:00	Oral Presentations	
Judges: Pankaj Shah, Jamal Rizvi, Dhananjai Agarwal		
8+4	A step towards bridging the gender gap in deceased donor kidney transplantation	Khushboo Saxena
8+4	Pd-L1 polymorphism can impact post transplant acute rejection and chronic antibody-mediated rejection	Ranjana Minz
8+4	CYP3A5 polymorphism and its influence on immunosuppression in renal transplant recipients	Athish M N
8+4	Costimulatory blockade alters the localization of gamma-delta t-cells in the secondary lymphoid to promote transplantation tolerance	Girdhari Lal
8+4	Clinical profile and outcomes of elderly kidney transplant recipients	Jithin S Kumar
10:00 - 10:40	Oral Presentations	
Chairpersons: Devika Gupta		
8+2	Comparative analysis of patient characteristics and mortality rates in simultaneous pancreas and kidney transplantation (SPK) vs renal transplantation alone for patients registered in deceased donor program - A single centre study	Amit Sharma
8+2	Utilisation of marginal livers with hypothermic oxygenated machine perfusion strategy - Initial experience from Indian perspective	Venkatesh B S
8+2	Progression of simultaneous pancreas and kidney transplant (SPK) program in PGIMER, Chandigarh	Shivakumar S Patil
8+2	Simultaneous nephrectomy and kidney transplantation surgery in symptomatic autosomal dominant polycystic kidney disease	Manjunath Maruti Pol

10:40 - 11:10 Mini Oral Presentations		
Chairpersons: Jitendra Goswami, Rayees Yusuf		
5+1	Are we seeing more fungal infections post covid?	Pavan Kumar Rao Navva
5+1	Clinical profile and sonographic assessment of living kidney donor's in Marathwada region: A single centre study	Rahul Tengse
5+1	Covid -19 infection in simultaneous pancreatic kidney transplant recipients - First case series from Asia	Venkata Kanaka Naga Karthik Nasika
5+1	The impact of kidney donor profile index on delayed graft function and transplant outcomes: A retrospective analysis in a single centre	Karthik Urala H A
5+1	Impact of donor-specific antibodies (DSAS) and non-DSAS detected by single antigen bead assay (SAB) on biopsy-proven acute rejection (BPAR) and graft survival in renal transplant recipients at a tertiary care	Rachana Shenoy
11:10 - 12:10 Mini Oral Presentations		
Chairpersons: Umesh Godhani		
5+1	Rare complication - Small bowel obstruction after kidney transplantation	Varun Mamidi
5+1	Post-transplant diarrhea - An observational study regarding clinical profile and outcome	Taniya Bhuuyan
5+1	Outcome of ABO incompatible live donor renal transplant - An experience in tertiary care centre of northwest India	Aseem Singla
5+1	The impact of Hepatitis c virus infection on the clinical course, short term and long term outcome in renal transplant recipients - A prospective and retrospective study	Smriti Singh
5+1	HSV esophagitis late post-transplant - Battling a symphony of infections and navigating the challenges of multifarious organisms in a resilient post-transplant patient	Akshaya Jayachandran

5+1	Organ donation from brain dead donors - Societal perspectives	Noble Gracious
5+1	A Neutrophil gelatinase-associated lipocalin (NGAL) as a predictor of graft dysfunction in live-donor renal transplant recipient	Mahendra Kumar
5+1	Upside-down orientation of graft and its outcome in renal transplantation - A prospective comparative study	Kishan Patel
5+1	A quasi experimental study to evaluate the Impact of structured education and skillful certified programme in kidney transplantation among the staff nurses of a territory transplant centre	Sandhya Nair
12:50 - 14:00	LUNCH	
14:00 - 15:15	Oral Presentations	
Judges: Aruna Acharya, Anupama Kaul, Raj K Yadav		
8+4	Can blocking the amplifier loop with anti-interleukin-6 and anti-interleukin 17 reduce inflammation and fibrosis in chronic active antibody-mediated rejection?	Narayan Prasad
8+4	Safety of epidural analgesia in living donor renal transplant recipients	Ananya Ray
8+4	Role of donor derived cell free DNA (DD-cfDNA) in predicting active rejection in renal transplant recipients: A prospective observational study	Debdeep Mondal
8+4	500 kidney paired donation transplantation in single centre to increase donor pool in India: A cohort study	Ruchir Dave
8+4	Outcome of BK virus infection in renal allograft recipients	S M Assad
8+4	Outcomes of desensitization in HLA sensitized pediatric kidney transplant recipients: A retrospective observational study	Shahenaz Kapadia
15:15 - 16:15	Mini Oral Presentations	
Chairpersons: Radhika Krishna Patil		

5+1	Anaesthetic practices in simultaneous pancreas and kidney transplantation	Varun Mahajan
5+1	A prospective observational study comparing learning curve of surgeons in total laparoscopic vs hand assisted laparoscopic donor nephrectomy	Venkata Kanaka Naga Karthik Nasika
5+1	A comparative retrospective study of retroperitoneal and transperitoneal laparoscopic donor nephrectomy in donors with BMI >25: Assessing donor and recipient outcomes	Suhas D S
5+1	Feasibility of using skin flap as a tool for remote site monitoring of allograft rejection in deceased donor kidney transplant	Sarbpreet Singh
5+1	Anaesthesia management of ESRD patients with uraemic dilated cardiomyopathy undergoing renal transplantation - A retrospective observational study	Amit Sharma
5+1	Simultaneous pancreas and kidney transplantation from extra small paediatric donors	Arun Panjathia
5+1	Primary laparoscopic peritoneal fenestration and internal drainage of an infected lymphoceles after renal transplantation	Ajay Nimbalkar
5+1	En block pediatric kidney transplant in an adult female - How it is managed medically - A case report	Shiak Razia
5+1	Pediatric kidney transplant and external urinary diversion in a patient with IVC thrombosis and abnormal urinary bladder - A case report	Sahil Rally
