

6th October, 2023 || Friday

FREE PAPER 1

08:00 - 09:00 Mini Oral Presentations		
Chairpersons: Arjun Ray, Rajib Mondal		
5+1	Spectrum of respiratory tract infections in renal allograft recipients	Harmeet Singh
5+1	Infection patterns following live related renal transplantation: Insights from a tertiary care centre in North East india	Sweety Kakoti
5+1	Long-term outcomes for living kidney donors: A single centre experience	Venkata Kanaka Naga Karthik Nasika
5+1	Clinical features and outcomes of renal cell carcinoma in renal transplant recipients	Umapati Hegde
5+1	A case study of diabetic kidney donor - A long term outcomes at our institute	Harshkumar Patel
5+1	Hypokalemia as a cause of acute renal allograft dysfunction: An overlooked entity	Vikas Khandelia
5+1	Deceased donor kidney transplantation: 5 year single centre experience from Gujarat	Shivam Shah
5+1	Post transplant renal allograft dysfunction in a tertiary centre in North East - A retrospective observational study	Tanurekha Hazarika
5+1	Clinical profile and outcomes of post transplant thrombotic microangiopathy - A single center experience	Harshita Sharma
5+1	Outcome of delayed graft function and slow graft function in renal transplant recipients in a tertiary care centre in eastern india	Sourav Sadhukhan
09:00 - 10:00 Oral Presentations		
Chairpersons: Gayatri Pegu, Tanima Das Bhattacharya		

8+2	First single-centre simultaneous six-way kidney exchange cycle in Rajasthan	Aseem Singla
8+2	Impact of acute rejection on long-term graft outcome in kidney transplant recipients	Gopikumar S
8+2	Rare association of donor specific antibody negative antibody mediated rejection with segmental thrombosis and infarction	Aneesh Nanda
8+2	Outcome of living related donor kidney transplantation in patients with negative CDC and flow cross match but positive luminex donor-specific HLA antibodies	Krishnapriya Vadlapatla
8+2	Risk factors for developing new onset diabetes post renal transplantation (NODAT)	Chaitrali Gawde
8+2	To compare the outcomes in live related renal transplant recipients with the usage of ATLG/anti-T-lymphocyte immunoglobulin (Grafalon) vs basiliximab as an induction agent	Ruchir Dave
10:00 - 10:20	COFFEE BREAK	
10:20 - 11:00	Oral Presentations	
Chairpersons: Vikas Makkar, Kanai Lal Karmakar		
8+2	Clinical profile of transplant glomerulopathy	Remyasri Akhil
8+2	Impact of donor vascular endothelial growth factor polymorphism on renal allograft rejection	Narayan Prasad
8+2	Impact of HLA donor specific antibody vs non-donor specific antibodies by single antigen bead method in predicting outcome of living related renal allograft recipients - A single centre experience	Jeyakumar Meyyappan
8+2	Endothelial microparticles in antibody-mediated renal allograft rejection	Shubhi Kamthan
11:00 - 12:00	Mini Oral Presentations	
Chairpersons: Sourabh Sharma, Saugat Dasgupta		

5+1	Superior outcome of ABO incompatible (ABOi) compared to ABO compatible (ABOc) kidney transplants	Prashant Rajput
5+1	Spectrum of complement mediated kidney diseases across generations: Tale of a mother and son	Kristine George
5+1	A single dose basiliximab induction in kidney transplantation - A retrospective study	Shailendra Tiwari
5+1	Live related kidney donation is voluntary but it in many studies it has been shown that female donors account for more than 50% of the total living kidney donation	Durgesh Pushkar
5+1	Inflammatory response from peripheral blood mononuclear cells induced by urinary mitochondrial DNA derived from covid-19-associated AKI in renal transplant recipients	Narayan Prasad
5+1	Post transplant erythrocytosis - A single centre experience	Viswas T
5+1	Incidence of BK viremia and BK virus nephropathy in post RAR patients in Indian setup and comparison of graft outcome by various treatment strategies	Bharadwaj Bachhu
5+1	Retrospective study of spectrum and treatment outcome of biopsy proven CA-TCMR in a tertiary care hospital in eastern India	Gopambuj Rathod
5+1	Ten year study on the histopathologic analysis of allograft nephrectomies	Malathi C V
5+1	Outcome of cytomegalovirus infections in D+/R+ renal allograft recipients receiving universal valganciclovir prophylaxis vs pre-emptive therapy at a tertiary care public institute in south India	Ankita Raisinghani
12:00 - 12:50	Oral Presentations	
Chairpersons: Nikunj Rout, Sandeep Saini		
8+2	Follow up study of kidney donors from a tertiary care centre	Poongodi Annadurai

8+2	Does the use of high-dose corticosteroids in renal transplant recipients during covid-19 have a long-term impact?	Vamsidhar Veeranki
8+2	Genetic association in patients undergoing renal allograft transplant: An observational study	Tarun Gangaram
8+2	Dengue fever among renal transplant recipients - Single centre experience	Umapati Hegde
8+2	Expanding the donor pool in renal transplantation: Comparison of outcome between deceased donor, paired kidney exchange and abo incompatible transplantation - Single centre experience	Aparna Balachandran
12:50 - 14:00	LUNCH	
14:00 - 15:00	Mini Oral Presentations	
Chairpersons: Keshab Sil, Rohit Rungta		
5+1	Neoplasms in renal transplant recipients	Karthik Srinivas
5+1	Machine perfusion in organ transplantation - An Indian experience	Gawtham Dakshinamurthy
5+1	Pre-transplant immunologic risk assessment in high baseline ABO antibody titres with DSA, response to desensitization therapy and outcomes in ABOi kidney transplantation	Sonia Mehrotra
5+1	To study echocardiographic changes after kidney transplantation	Abdul Waheed Khan
5+1	Spectrum of histopathological findings and clinicopathological correlation of renal allograft biopsy at a tertiary care hospital in eastern India - A two years experience	Sanjana Sharma
5+1	Death with functioning graft from infections is the principal cause for renal allograft loss - A retrospective study from a kidney transplantation unit in south India	Karthikeyan M
5+1	Nocardiosis in renal transplant recipients	Chilaka Rajesh

5+1	Severe antithymocyte globulin-induced (ATG) cytokine release syndrome(CRS) in renal transplant recipient - 2 case reports	Nishit Mohanty
5+1	Deadly four-fungal infections in renal transplant recipients	Chilaka Rajesh
5+1	Anti-T-Lymphocyte Immunoglobulin (Grafalon) as an induction agent for renal transplantation: A real world experience	Shivani Kanwal
15:00 - 16:00	Oral Presentations	
Chairpersons: Tauhidul Alam Choudhary, Kity Sarkar		
8+2	¹ H NMR based metabolomic study of metabolic profiling for the serum of acute vs chronic antibody mediated rejection patients	Mantabya Singh
8+2	Study assessing the incidence of de novo DSA-HLA antibodies and its outcome following renal transplantation	Himadri Shankar
8+2	Risk factors for new-onset diabetes mellitus after living donor kidney transplantation (NODAT) in a tertiary referral centre in eastern India - A prospective single centre study	Santosh Kumar
8+2	Comparison of short term outcomes with and without induction therapy in low risk renal transplant recipients	Sanket Patel
8+2	Collapsing glomerulopathy in renal allograft recipients - Clinical features and outcomes - A single centre experience	Harrinidevi Palanibaskar
8+2	Evaluation pharmacodynamic biomarker of immunosuppression in renal transplant recipients with or without anti-thymocyte globulin induction treatment	Ritika
16:00 - 17:00	Oral Presentations	
Chairpersons: Biswaranjan Mohanty,		
8+2	ABO incompatible kidney transplantation: A single centre experience	Dan Elizabeth Sunny

8+2	Mapping fracture risk assessment and osteoporosis management in CKD - Insights from a national survey of 1208 nephrologists	Vijay Kher
8+2	Should diabetics be accepted as living donors for kidney transplantation?	Chaitrali Gawde
8+2	Incidence and risk factors for dyselectrolytemias in the first 48 hours after kidney transplantation - A single centre, retrospective study	Piyush Panchalwar
8+2	Human parvovirus b19 infection in kidney transplant recipients: Therapeutic strategies and outcomes	Arun Panjathia
8+2	Elevated circulatory pyruvate levels and mitochondrial dysfunction is associated with symptomatic covid-19 disease in renal transplant recipients	Brijesh Yadav
