FREE PAPER 3

08:00 - 09:00 Mini Oral Presentations

Chairpersons: Sirkanungo Padmini, Minaxi Patel

5+1	Evaluation of erythropoiesis after renal transplantation - A prospective observational study	Nikhil Pratap Singh Yadav
5+1	Gender disparity in renal transplantation - An observational study in a tertiary hospital of north India	Nikita Hapani
5+1	Predictors and outcomes of recurrence of Hepatitis c after anti-viral therapy in kidney transplant recipients	Kruteesh Kumar B S
5+1	The length of postoperative hospital stay and clinicodemographic features of kidney transplant recipient in a tertiary care hospital	Pukar Chandra Shrestha
5+1	IGA nephropathy presenting in young adults as advanced chronic kidney disease and post transplant early recurrence: A case series	Tusti Kumari
5+1	Long term kidney transplant outcomes for acute tubular necrosis in living donor renal transplant recipients	Alok Kumar
5+1	An observational study on etiology of proteinuria in renal transplant recipients in a tertiary hospital of north India	Gigin S V
5+1	CMV viraemia with pulmonary TB and aspergillus infection post-transplant	Madhurima Dutta
5+1	Long term outcome of complex living renal donation conducted in single centre	Dipankar Talukdar
5+1	Clinical profile and outcome of covid in patients on renal replacement therapy (kidney transplant and maintenance haemodialysis)	Saumya Vishnoi

09:00 - 10:00 Mini Oral Presentations

Chairpersons: Kapiljeet Chakraborty, Indradip Maity		
5+1	Dynamics of organ transplantation in Uttar Pradesh: Unravelling timelines in government and private healthcare arena	Akanksha Chowdhary
5+1	Rare case of graft mucormycosis with dissemination in deceased donor renal transplantation	Karthik Urala H A
5+1	Allograft outcomes in low risk live renal transplant recipients receiving low dose anti thymocyte globulin - A single centre experience	Lavanya Gayatri
5+1	Successful allograft preservation by percutaneous transluminal renal angioplasty (PTRA) in case of transplant renal artery stenosis (TRAS)	Ashish Singh
5+1	Incidence and outcomes of lower urinary tract symptoms in early post renal transplant patients	Shivakumar S Patil
5+1	Clinical spectrum and outcome of parvovirus b19 infection in renal transplant recipients - A retrospective review of 3 patients from north-east India	Farha Yasmin Bora
5+1	Challenges and triumphs in renal transplantation: A journey through de novo FSGS, delayed graft function and pigment cast nephropathy	Gurjot Singh
5+1	Eventful yet successful renal transplantation in a patient of TNF receptor-1 associated periodic syndrome	Aviral Kashyap
5+1	The curious case of gas in the graft kidney	Rachana Shenoy
5+1	Clinical characteristics and outcome of kidney transplant recipients infected with cocoa 19 - A retrospective observational study	Rayees Sheikh
10:00 - 10:20	COFFEE BREAK	
10:20 - 11:00	Oral Presentations	
Chairpersons: Sandip Kumar Panda, Sunil Kumar		
8+2	Profile of renal re-transplantation in a tertiary care centre - A single centre experience	Kiran Ravi

8+2	Liver transplantation for alcohol relate liver disease in the era of acute on chronic liver failure (ACLF) - Single centre experience	Dinesh Jothimani
8+2	An atypical organism in a secluded location causing myriad dissemination in a post renal transplant recipient	Karthick S Subash
8+2	Refractory diarrhoea in renal transplant recipients - A tale of cryptosporidium	Ramiz Islam
11:00 - 12:00	Mini Oral Presentations	
Chairpersons: Shailesh Kakde		
5+1	TMA in ABO incompatible kidney transplant - Eculizumab to the rescue	Mohammed Fahad Khan
5+1	Unusual presentation of postrenal transplant hemophagocytic lymphohistiocytosis associated with parvovirus b19	Rahul K R
5+1	Case series of parvovirus b19 related anaemia in post renal transplant patients	Smita Patil
5+1	Post renal transplant monoclonal gammopathy of renal significance	Prateek Shirke
5+1	Effect of early acute rejection on long term graft and patient outcomes in kidney transplant recipients - An observational study	Soumen Khamrui
5+1	Prevalence of human leukocyte antigen alleles frequency in north Indian population	Brijesh Yadav
5+1	Idiopathic haemolytic anaemia in cadaveric renal transplant recipient with suspected transplant renal artery stenosis	Lalit
5+1	A case report of rhino-orbital mucormycosis in an ABO-incompatible renal transplant recipient	Jayaprakash K
5+1	Epidemiological profile of post transplant diabetes mellitus in renal transplantation: A two years' experience from a single centre in eastern India	Aniruddha Datta

5+1	Case series of immediate post transplant thrombocytopenia- clinical correlation and likely causes	Niral Patel
12:00 - 12:50	Mini Oral Presentations	
Chairpersons: Amit Kumar, Raju Sahu		
5+1	Reverse cardiac remodelling and its predictors following renal transplantation - 6 month follow-up study from a tertiary care centre in south India	Sairam B
5+1	Basiliximab - The saviour	Sudarshan Gowda
5+1	A study of glomerular filtration rate by c.g., MDRD, and CKD epi formula in comparison with DTPA renal scan - A comparative study among healthy volunteers at tertiary care centre	Kavish Sharma
5+1	Understanding the reasons for dialysis patients refusing kidney transplant: An observational study from south India	Md Samiul Akhtar
5+1	Outcome of second kidney transplantation - A single center study	Gaurav Modi
5+1	Rapid encrustation of DJ stent: An unusual presentation of asymptomatic pretransplant hyperuricemia in a pediatric renal allograft recipient: A unique first report and endoscopic management (video)	Suresh Bhagat
5+1	Recurrence of primary hyperoxaluria 2 in renal allograft	Ashwini Joga
5+1	Parichay patient support program: Useful tool for improving compliance in kidney transplant recipients	Sanjeev Gulati
12:50 - 14:00	LUNCH	
14:00 - 15:00	Mini Oral Presentations	
Chairpersons: Smartya Pulai, Ritesh Kauntia		
5+1	Thrombotic microangiopathies post renal transplantation	Ajey Jha

5+1	A case series of mucocutaneous fungal infection after renal transplant and their successful treatment with novel antifungal - our experience	Balaji Kirushnan
5+1	Live-donor renal transplant: An initial experience and transitioning to robot-assisted renal transplant at a tertiary care centre in north India	Rohit Deshpande
5+1	Comparison of ATLG with ATG as the induction agent in living donor kidney transplantation: An experience from Nepal	Mukunda Prasad Kafle
5+1	An analytical retrospective on the safety and efficacy of transplant kidney biopsies	Kshitija Gadekar
5+1	Pure red cell aplasia after living-related renal transplantation - Who is the culprit?	Arhana Banerjee
5+1	Antibody mediated renal allograft rejection - emerging role of non-HLA antibodies	Sayali Dalvi
5+1	HLA incompatible transplant in a young lady - An immunological challenge	Ronak Jain G
5+1	Attitude and knowledge of maintenance hemodialysis patients towards kidney transplantation - Single center experience	Harrinidevi Palanibaskar
5+1	Case series of post renal transplant pseudoaneurysm	Alok Kumar
15:00 - 15:40	Mini Oral Presentations	
Chairpersons: Vivek Goel		
5+1	Osseous metaplasia in renal allograft: Rare case report and literature review	Malathi C V
5+1	Clinico-epidemiological patterns of PTDM following live related renal transplantation in a tertiary care centre in north-east India	Himanish Goswami
5+1	Analysis of liver enzymes of haemodialysis patients after kidney transplantation - A single centre study	Sourya Sourabh Mohakuda
5+1	Triple trouble: A rare case of invasive pulmonary aspergillosis with cmv and tb in a renal transplant recipient	Ambar Khalwadekar

5+1	Cryptococcal infection in renal transplantation - A single centre experience	Aneesh Kumar
5+1	West Nile encephalitis - A rare cause for meningoencephalitis in post renal transplant recipient	Aravind V N
